Touching hearts. Saving lives.

Our mission is to inspire and enable women and their loved ones to take action that prevents heart attack, stroke, and premature death.

THE HEART2HEART FOUNDATION, INC.

+2026 SIGNATURE EVENTS & PROGRAMS

Through a collaborative partnership with the Singhi Charitable Foundation, our Frontline Heroes Wellness Fund **provides scholarship-supported advanced cardiovascular prevention screenings and risk assessments** for first responders, law enforcement, emergency services personnel, school district faculty, and nurses in the Charlotte metro area.

Our #TestNotGuess program connects individuals with information and heart health screenings designed to detect heart disease early. Nearly 90% of U.S. adults have at least one risk factor for heart disease, making early detection critical. The program provides advanced lab work and cardiovascular screenings for asymptomatic adults age 40 and older, with discounted screening services and scholarship assistance available for individuals facing income disparities.

#RedHeartMamas - created by women, for women - is dedicated to advancing women's heart health through education, prevention, and early detection. Founded in 2012, the program empowers women of all ages to turn awareness into action— understanding their personal risk and becoming strong advocates for their health, their families, and their communities. With members nationwide, #RedHeartMamas connects women through a private online Facebook group complemented by in-person social gatherings.

Our children and youth outreach **serves approximately 7,000 children and youth** through age-appropriate heart health education delivered via programs such as **Kiwanis Terrific Kids**, the **Back2School Block Party**, and community events like **ChristmasVille Rock Hill**—because heart health begins in childhood. Since 2016, we have reached thousands of local students and families with meaningful, age-appropriate prevention messaging. This impact continues year-round through free heart health tips and resources shared with parents via our website, email newsletter, and social media platforms.
